

# Ance Luize Giptere

BMMP 8th grade student, Latvia

# Me and my family

I live with my 3 year old brother, who really likes hockey and football, my dad, who has played hockey all his life and still plays, and my mom, who used to be a dancer and owned her own dance studio. I have young parents (they're both 30 years old, and I'm already 14). We have moved 13 times, there were multiple places in Riga and Liepaja and we even moved to Kazakhstan because my dad played hockey there. My dad has moved even more times, because of hockey. He played in Finland, Britain and Slovakia.

# My hobbies

And my passions

## Passion 1 - dancing

I really love dancing and I've danced almost my whole life. Right now I'm dancing urban choreography.

## Passion 3 - singing

I sing all the time, that's why it's my passion. I sang in a choir when I studied in Rigas 6 high school.

### Some of my hobbies

Decorating,  
making presentations,  
cleaning,  
reorganizing,  
basketball,  
volleyball, making clothes and going outside for walks.

## Passion 2 – listening to songs

I listen to music all the time, there is not a day without music, and I literally know all lyrics to any song (in English).

## Passion 4 - decorating

I decorate all the time, when I'm bored, I decorate, when I'm busy, I decorate, basically when I want, I decorate.

# More about dancing

I've danced over 9 years.

I've danced ballet, ball dance, hip-hop, contemporary dance, fusion and now I'm dancing urban choreography.

I started dancing because my mom was a dancer and owned her own studio, and when I was little I used to say that I'm going to be just like my mom and will own a dance studio just like hers.

# More about music

I used to play the violin, I played it for 3 years, but I didn't like it that much so in 4<sup>th</sup> grade I changed my instrument to the piano. Right now I don't play any instruments, But I would like to play the piano again. I went to two musical schools (one in Liepaja and one in Riga). I loved to sing in the choir and I would like to sing again.

# My strong sides in school

## Physics

I really like physics. I don't just learn about it in school, but also by myself, because I find it very interesting.

## Art

I am very good at arts, because I love painting and drawing, and I do a lot of painting projects at home too.

## P.E.

I'm good at P.E. because I'm an active person and I've played basketball and danced and I went to athletics, and I guess that it's the reason why I'm good at sports.

## English

I'm good at English because when I was in kindergarten I had an English teacher who came to the kindergarten. Also I watch only English movies because I like them better than Latvian movies or Latvian translated movies. I just like English better.

Thank you for watching!
